PROFESSIONAL SUMMARY

Front-End Developer | React Specialist | JavaScript Developer

Front-End Developer specializing in React.js and Next.js with experience in building responsive, high-performance web applications. Skilled in state management using Redux, API integration, and delivering optimized user experiences through Server-Side Rendering (SSR), Static Site Generation (SSG), and SEO optimization. Hands-on projects include advanced e-commerce platforms, interactive web tools, and personal portfolios. Passionate about continuous learning, UI/UX design, and performance optimization.

SKILLS

Technical Skills
- **Languages & Front-End:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Redux
- **Styling & UI:** Tailwind CSS, Material UI, Bootstrap, Sass, Framer Motion
- **Tools & Version Control:** Git, GitHub, Vite, VS Code
- **Other:** Responsive Web Design, API Integration, SEO Optimization, Server-Side Rendering (SSR), Static Site Generation (SSG), UI/UX Principles, Performance Optimization, Cross-Browser Compatibility

EXPERIENCE

Front-End Intern – Biddigest Co. Ltd

(Sep 2025 – Present)
- Hands-on experience with React.js and Next.js in real-world projects.
- Implemented responsive design and SEO-friendly web pages using SSR and SSG.
- Collaborated with team members to enhance UI/UX design, code quality, and application performance.

PROJECTS

E-Commerce Web Application
(React, Redux, React Router, Tailwind CSS, Framer Motion, API Integration)
Developed a responsive e-commerce web application with user authentication, product browsing, and a complete cart & checkout system. Integrated a custom fake API with product data that I collected and structured, while focusing on performance optimization despite the large number of products and images. Designed the UI from scratch using Tailwind CSS, enhanced with Framer Motion animations and dynamic toast notifications to deliver an engaging and user-friendly experience across devices.
GitHub 🔗 | **Live Demo** 🔗

Portfolio
(React, Motion, CSS)
A responsive personal portfolio showcasing projects in a modern design, with smooth animations and Dark/Light mode support.
GitHub 🔗 | **Live Demo** 🔗

Weather App
(React, Material UI, OpenWeather API)
A weather application providing real-time global weather data with a clean and responsive interface.
GitHub 🔗 | **Live Demo** 🔗

Image Editor
(HTML, CSS, JavaScript)
A lightweight web tool for real-time image editing (saturation, brightness, contrast, blur, grayscale, etc.) with reset and download options.
